

Sandeepani Senevirathna

Senior Software Engineer

Pannipitiya Road,
Pelawatta,
Battaramulla.

Email: h.sandeepani@gmail.com LinkedIn: <https://www.linkedin.com/in/hiranyada/> Mobile: 077 5447481

Profile

I am a Senior Software Engineer with more than 14 years of experience in the IT industry. My primary area of expertise lies in C# and .Net/ SQL Server development, while being capable of Xamarin, desktop and web development and reports. I have earned a “BSc in Computing (Portsmouth, UK)” degree with a prize for my final project and an “MSc in IT (Moratuwa)”.

I have the willingness to strengthen my technical knowledge/expertise, people skills and contribute towards the organization's growth.

Skills

- Current tech stack: C#, Microsoft SQL Server, Xamarin (Android/iOS), WPF, JavaScript, NodeJS, MongoDB Realm, Linq, ADO.Net, Windows RDLC Reports, WCF services, Linq to SQL, WebAPI
- Previous tech stack: ASP.Net MVC, JQuery, Crystal Reports, HTML, PHP, MySQL and MS Access, Google analytics, Google Webmaster tools, cPanel and Joomla
- Having studied KnockoutJS, Docker/Kubernetes basics, Java 6 (theory), Angular basics and Kotlin basics
- Domains: Retail POS, Wholesale POS, ERP, Pharmaceutical Supply Chain/Inventory Management, PayTV (Satellite TV) Subscriber Management, Subscriber Billing, Taxi Rental and Vehicle Fleet Management.
- UML, Object Oriented Programming and Scrum practices
- JIRA, BitBucket, GIT, TFS and Mantis
- ArcGIS usage and GIS/GPS technology
- Possess software engineering skills and experience in different phases of product development lifecycle including design documentation, writing product documents, unit testing, code reviewing, guiding teams for development releases/testing/presentation to management, a little software testing, training junior developers

Awards

- The **Best Collaborative Student Project** award in 2010 October by the School of Computing, University of Portsmouth, UK

Personal Information

- Full Name : Hiranyada Sandeepani Senevirathna
- Date of Birth : 28-11-1984
- Home town : Kandy
- Civil Status : Married
- On going hobbies and interests: Blogging, Reading, Gaming, Learning new things like history/philosophy

Work Experience

Designation	Company	Period	Projects
Senior Software Engineer	Ecologital Ltd.	2019 - Present	Backend API for TempleTrax Self-Service Kiosk, Witmeg Handle/ Witmeg Dashboard, Witmeg REPS Neutri Neuralage, Witmeg Web Dashboard, HHD, TempleTrack
Software Engineer	Bileeta (Pvt) Ltd.	2014 - 2019	Entution ERP, Entution Vesta
Associate Software Engineer	Duo Software	2011-2014	BillUsers.Com - Point of Sales System, BillUsers.Com - Subscriber Billing, Web based Pay-TV Subscriber Management System
Software Engineer	Centura Solutions Pvt Ltd.	2011	Taxi Management System
Trainee Web Developer	FlexSoft, subsidiary of Asian Destinations (Pvt) Ltd, Kandy	2010 - 2011	Vehicle Fleet Management System

Education

Title	Institute	Status
M.Sc in Information Technology	University of Moratuwa	Completed - 2017
B.Sc (Honours) in Computing	University of Portsmouth – UK (at Singapore Informatics Computer Institute)	Completed (1 st class) - 2010
GCE Advance Level	- (External)	Completed (B, C, S) - 2005
GCE Ordinary Level	Mahamaya Girls' College, Kandy	Completed (7Ds and 5Cs) - 2000

Professional Qualifications

Title	Institute	Status
Competent Scrum Master Certification Training	Project Management Solutions	Training completed - 2019
Certificate on Programming in C# - Microsoft	NetAssist International	Training completed - 2018
Certificate for Developing Web Based Applications using ASP.Net 2005 with MS SQL Server	ESOFT Computer Studies Institute	Completed – 2008/2009
Sun Certified Java Programmer 5.0 (Trained for 6.0)	ICBT	Passed - 2009
Advanced Short Course on GIS and its Applications/ Short Course on GIS and its Applications	Post Graduate Institute of Science, University of Peradeniya	Completed - 2010
Cisco Certified Network Associate Training	E-Win Networks Training Center	Training completed – 2011
Certificate of Computer Science	NIBM	Completed - 2005
Short Work Program in Information Technology - MS Office 2000 and Internet	NIIT	Completed - 2001
Certified Kubernetes Administrator (CKA) with Docker - Online Training	WinIT Solutions (pvt) Ltd	Training completed - 2022
Other online certificates (AI basics, React Native basics, Kotlin Android basics)	SkillUp Online , Udemy

Additional Information - Professional Project Contributions

Backend API for TempleTrax Self-Service Kiosk	Web API services built with Entity Framework and SQL Server for the TempleTrax mobile app for use in Hindu Kovils in UK as a Self-Service Kiosk application for Devotees. Functions are to retrieve Ticket Information and record Ticket Transactions, retrieve Ticket Printout Templates, create Donations, get report details.
--	--

Witmeg Handle/ Witmeg Dashboard	A Xamarin mobile dashboard for displaying realtime sales information for management purposes. Using Xamarin for the app (Android and iOS) with MongoDB Realm for the realtime database and realtime data syncing. The data sources were retail POS, ERP/wholesale POS and restaurant POS systems. Also uses REST services. Witmeg Dashboard was the same as Witmeg Handle but using NodeJS with Realm Cloud DB for backend (with realtime data syncing). Worked on the app and NodeJS backend. Created the app from scratch.
Witmeg REPS	A mobile Xamarin Android app for doing SalesOrders and Proforma Invoices and printing Invoices for Field Sales. Uses MongoDB Realm for the realtime database and realtime data syncing. Uses Direct-Wifi technology for printing. Also uses REST services. Upgraded the app and changed it to use MongoDB Realm and Direct-Wifi.
Neutri Neuralage	Back-office desktop application for Restaurant POS system, for clients in the UK. Work includes product management, reporting, menu management, user management modules and usability improvements
Witmeg Web Dashboard	Similar to Witmeg Dashboard but a Web application using .Net Core, MCV and SQL Server.
HHD	A mobile app and WCF web services for Inventory management in large warehouses (for Android barcode readers). Used the DBMSs SQL Server for web services and SQLite for the app. Worked on both app and the web services. The data source was ERP/wholesale POS. Worked on maintenance and developing new features.
TempleTrack	A POS billing, devotee management and inventory system for use in Hindu Kovils in UK built using C# WPF and SQL Server with Windows RDLC Reports. Worked on the full stack. Worked on maintenance and developing new features including Whatsapp (Twilio), Email (SendGrid) integration and streaming data between local DB and MongoDB Atlas Cloud DB.
Entution ERP	An ERP system built using ASP.Net WebAPI in C#, MS SQL server and JavaScript/JQuery with a Layered, N layered (Service based) Architecture (Cloud and On-premise) Developing and troubleshooting issues in Transaction Forms, Master Forms, Setup Forms, Tools and Configuration Forms. Worked on report changes for the Report Pool using Crystal Reports, UI Bug fixing in the Transaction Forms and Performance Enhancements. Tasks include: • JavaScript/JQuery based UI development • Developing stored procedures, scripts, tables using MS SQL 2016 • Developing reports using Windows RDLC reports
Entution Vesta	Cloud based Pharmaceutical Supply Chain and Logistics management System for Nepali Health Ministry via USAID, built using ASP.Net WebAPI in C#, MS SQL server and JavaScript/JQuery with a Layered, N layered (Service based) Architecture Developing and troubleshooting issues by doing UI development, Crystal Reports and SQL queries. Kick started adaptation of Product and Warehouse forms, furthered the development of the JavaScript based Language Conversion Tool. Modules: Administration, Organization management, Procurement, Inventory & Warehousing
BillUsers.Com - Point of Sales System	Cloud based Point of Sales System using a third-party framework built on ASP.Net MVC framework with MVC architecture. Initially created the project based on the BillUsers Subscriber Billing System and developed the Sales Terminal. Conducting internal product presentations.

BillUsers.Com - Subscriber Billing	Developing and designing for Cloud based Subscriber Billing system (ASP.Net MVC) built on MVC architecture, which included the modules: Subscription Management, Subscriber Billing, Inventory Control, CAS Integration (C onditional A ccess S ystem), CRM, Reporting. Worked on Tax Management, CRM, Account Management, Audit Trail, Tax Calculations, Inventory Control, Reporting.
Web based Pay-Tv Subscriber Management System	Development for web-based Pay-TV Subscriber Management (ASP.Net MVC) system built on MVC architecture, which included the modules: Subscription Management, Subscriber Billing, and Inventory Control.
Taxi Management System	Developing, resolving issues in Taxi Management Systems with online booking using PHP, MySQL, cPanel , for clients based in UK Resolving issues in various web sites for Taxi companies, training institutes etc. Using GoogleAnalytics and Webmaster tools for SEO and removing malicious scripts
Vehicle Fleet Management System	Development tasks using PHP/MySQL on the Vehicle Fleet Management System, which was built on a three-layered architecture.

Additional Information - Academic and Personal Projects

Assets Management app	Flutter cross platform – in progress
MSc project - Improving Entity Resolution for image-based video search	A video searching method using Motion Detection and Feature Detection with a comparison of real-time search and searching a database (MatLab/MSAccess).
Bachelor's degree Final year individual project – Onsite Archaeological Data Management System	Archaeological excavation data management with a map view and layer hierarchy view (Desktop application using C#, MS SQL Server 2005, Linq to SQL and WCF). Researched on GISs and excavation management systems used in Archaeology
Advanced Diploma group project - Library System	Desktop application using C#, ADO.Net Datasets and MS SQL Server 2005.
Knockout POS terminal	ASP .Net MVC and KnockoutJS with SQL Server.
Pottery shop website	Static site with CSS animations.
